Professional Experience

Digital Project Manager / Product Owner

EUSO Digital (Remote) | Aug 2023 – Present

- **Led comprehensive digital transformation projects** for 5-7 concurrent accounts across government, tourism, aged care, and disability sectors, managing full project lifecycle from initiation to delivery
- **Implemented robust project governance frameworks** including detailed project planning, timeline management, resource allocation, and risk mitigation strategies to ensure consistent on-time, on-budget delivery
- **Developed and executed change management strategies** through stakeholder workshops, training material creation, and adoption support programs, resulting in improved user engagement and system utilisation
- **Facilitated cross-functional collaboration** across technical and non-technical teams, translating complex business requirements into actionable development roadmaps and ensuring alignment with strategic objectives
- **Managed comprehensive stakeholder engagement** including regular briefings, progress reporting, and presentation of project milestones to senior leadership and client executives
- **Championed accessibility and inclusive design principles** from initial discovery through deployment, ensuring WCAG compliance and educating stakeholders on the value of accessible digital solutions
- **Drove business development initiatives** through proposal writing, tender responses, and strategic account growth, contributing to revenue expansion and long-term client partnerships

Digital Project Manager

Platform Communications | Aug 2022 – Aug 2023

- **Managed strategic digital transformation initiatives** for clients in mining, oil and gas, and renewables sectors, employing agile methodologies for efficient project development and governance
- **Led comprehensive discovery and research sessions** to understand complex organisational needs, facilitating content audits and strategic planning to deliver commercially viable digital solutions
- **Developed and maintained detailed project documentation** including project plans, risk registers, and progress reports, ensuring transparency and accountability throughout project lifecycles
- **Provided strategic guidance to multi-disciplinary teams** on technical architecture, SEO principles, and performance metrics, ensuring seamless integration of design vision and technical execution
- **Executed change management processes** for website rebrands and system implementations, including stakeholder communication strategies and user training programs

National Events Manager

Aged & Community Care Providers Association | 2015 – 2022

- **Managed comprehensive national events and conference portfolio** for 500+ aged care member organisations while spearheading digital transformation initiatives including website redevelopment and digital recognition program implementation
- **Led rapid digital transformation during COVID-19** successfully transitioning entire events program from in-person to online platforms, developing new digital systems and change management processes that maintained stakeholder engagement
- **Developed and implemented change management strategies** for digital platform transitions, including comprehensive training programs and stakeholder communication plans that achieved high adoption rates
- **Prepared and delivered strategic project reports** to senior management and stakeholders, presenting project milestones, risk assessments, and success metrics while facilitating strategic decision-making
- **Collaborated with cross-functional teams** to define project scope, develop comprehensive project plans, and ensure adherence to budget, timeline, and quality standards for various digital deliverables
- **Demonstrated expertise in healthcare sector dynamics** through management of member communications, regulatory compliance requirements, and stakeholder engagement across diverse aged care and community service providers

Education & Professional Development

- **Google UX Design Specialisation** (Coursera, 2022–2023) - *User Research, Design Thinking, Prototyping, Accessibility*
- **Diploma of Leisure and Health** (Australis College, 2017) - *Community Health Sector Understanding*
- **Bachelor of Fine Arts, Minor in Marketing** (University of Guelph, Canada, 2005) - *Creative Problem-Solving, Strategic Communication*

Key Project Achievements

- Successfully delivered 15+ digital transformation projects across healthcare and community sectors with 100% on-time delivery rate
- Led aged care sector digital platform migration serving 500+ member organisations, achieving 95% user adoption within 3 months
- Implemented accessibility improvements across client portfolios, ensuring WCAG 2.1 compliance and improved user experience for diverse audiences
